3. Network Narrative:

    The consortium did not implement the network in FY 2007

4. List of Connected Health Care Providers

    The consortium did not implement the network in FY 2007.
    However when the system is implemented in FY 2008, the
    aforementioned health care providers will be connected.

5. Non-reoccurring and reoccurring cost Identification

    The consortium did not implement the network in FY 2007.

6. Cost apportionment Description

   The consortium did not implement the network in FY 2007

7. Identity of requirements or procedures necessary for ineligible entities to connect to network

   The consortium did not implement the network in FY 2007

8. Update on the project management.

   Two of the original consortium members signed contracts through their respective parent organizations and subsequently do not qualify for grant monies for Internet Access. The current consortium will make the appropriate applications for Internet Services in the second half of August 2008. Connection to the network and being operational should occur approximately 90 afterwards, no later than November 30, 2008.
